HERE Parking

Find the nearest available parking spot anywhere

HERE Parking is a cloud service that provides all the information needed to find nearest and best suited off-street or on-street parking lot. This includes current availability, pricing and restrictions.

With the most comprehensive and fresh parking information, HERE Parking helps drivers find a convenient parking spot quickly, close to their destination and in a safe area transforming the parking experience for both passengers and commercial drivers.

Key industry use cases

→ **Automotive / Mobility:**
Reduce search time for a parking spot.

→ **Transport and logistics:**
Increase efficiency for last-mile delivery.

Global coverage
Consolidate parking data worldwide with HERE Parking, that eliminates the need to manage inconsistent data quality or formats. Connect drivers to a single source of information encompassing 90 million off-street and on-street parking spaces.

Seamless integration
Immerse yourself in a cohesive HERE experience, where HERE Parking seamlessly integrates with products such as HERE Navigation, Search and Maps, offering a comprehensive one-stop solution for efficient navigation and parking coordination.

Full-range service offerings
Optimize your services by combining HERE Parking with other interconnected HERE products and services, and minimize multiple supplier contracts. Explore a comprehensive suite of offerings, including EV Charge Points, Fuel Prices, Traffic, Destination Weather, and Safety Cameras.
